01 Profile

Project planning and controls specialist with 13+ years on major oil, gas, petrochemical and power projects. Active across the full controls cycle: WBS and schedule development, baselining, progress measurement, earned value management, deviation and delay analysis, and analytical reporting and dashboards for management and clients. An IT background lets me automate project data and report faster.

02 Experience & Scope of Work

Project Planning & Control Feb 2026 – Present

Khatam al-Anbia Construction Headquarters · Bushehr
Nuclear Power Plant

- Maintain and control the detailed execution schedule and critical activities
- Measure physical progress, analyse baseline deviations, issue periodic reports

Project Planning & Control 2024 – 2025

Energy Mehr Pasargad Project Management Co. · Pars Behin
Qeshm Heavy Oil Refinery

- Built and controlled engineering and procurement schedules with float analysis
- S-curves, earned value indicators and delay root-cause analysis

IT / Project Planning & Control 2022 – 2024

Kimia Sanat Mabna Co. (Bakhtar Group) · Negin Makran
Petrochemical Development

- Set up organisational structures, calendars and account codes in the scheduler
- Automated progress data collection and built KPI dashboards

IT / Project Planning & Control 2020 – 2022

Petro Pars Ghodrat Co. · Arian Methanol Petrochemical

- Tracked construction progress, recorded completion and issued weekly reports

IT / Project Planning & Control · Niroo Pajoo Co. · Mapna 2017 – 2020

Combined-Cycle Power Plant

IT / Project Planning & Control · IGC Co. · South Pars Phase 14 2016 – 2017

Project Planning & Control / Industrial Materials & Equipment 2013 – 2015

Specialist · Isfahan Regional Electric Co. · Power generation and distribution projects
